There is no weigh-in this year. Pictures must be turned in with DNA. All paperwork, DNA, and pictures must be turned in by May 15th at 5pm to the fairgrounds office in a sealed envelope labeled BEEF

Items to turn in:

DNA pulled with root follicle attached, 25/30 hairs, placed in a plastic bag with members name and RFID number written in permanent marker on the outside.

We recommend using hair from tail switch.

Use a separate bag for each animal.

Immediate family living at the same address may enter as a family. All members must be listed on paperwork.

You must do the steps above plus provide 1 full body picture per animal.

Place all pictures in a labeled plastic bag separate from DNA.
