**Mandatory weigh-in for beef and Dairy Beef. Third Saturday in March, @ 8:30 am to Noon.**

All paperwork, DNA, and RFID tags in ears need to be completed before pulling up to weight in

**Items to turn in:**

DNA pulled with root follicle attached, 25/30 hairs, placed in a plastic bag with members name and RFID number written in permanent marker on the outside.

**We recommend using hair from tail switch. Use a separate bag for each animal.**

*Immediate family living at the same address may enter as a family. All members must be listed on paperwork.*
